ENGINEERS ON THE RISE: CHANGES IN LUFKIN

Lufkin—Klotz Associates is pleased to announce that **Joseph E. Evans, PE, RPLS**, is stepping into the role of **Regional Manager** and **James M. Flournoy** has assumed the role of **Client Manager**.

Evans has 37 years of professional civil engineering experience including his previous position as Senior Project Manager with Klotz Associates. Evans' new position as Lufkin's Regional Manager will entail the oversight, preparation and execution of a variety of projects. The American Society of Civil Engineers (ASCE) and National Society of Professional Engineers (NSPE)- Deep East Texas Chapter are just two of several professional organizations that name Evans a member. A graduate of the University of Missouri, Evans received his Bachelor of Science degree in Civil Engineering and is a licensed Professional Engineering in both Arizona and Texas.

Flournoy received his Bachelor of Science degree in Construction Science from Texas A & M University. He is a **native of Lufkin** and has been with Klotz Associates for 9 years. Flournoy's particular areas of expertise lie in the **design and preparation of projects relating to infrastructure**. The foundation of Lufkin's streets has improved as a result of the numerous construction projects that Flournoy has been involved in. As the Lufkin office Client Manager, Flournoy will focus on further strengthening relationships with Klotz Associates' East Texas Clients while delivering quality solutions. Flournoy is an active member of several professional organizations including American Society of Civil Engineers (ASCE) and Chairman for the Deep East Texas Chapter of American Red Cross.

President of Klotz Associates, D. Wayne Klotz, PE, D.WRE, stated, " We look forward to the outstanding leadership of both Joe and James in their new positions. It is a busy and exciting time for our Lufkin office as the firm continues to grow in East Texas."

Founded in 1985, Klotz Associates has twice been named to Zweig-White's Hottest List of fastest growing firms in the engineering, architectural and environmental consulting industry. With a staff of 115 professionals, the firm provides land development, transportation, traffic, ITS, water and sewer, aviation and drainage consulting engineering services.
